Guidelines for Integrating Gender-based Violence Interventions in Humanitarian Action

Reducing risk, promoting resilience and aiding recovery

Tuesday, 17 November, 2015

13:45 – 14:45, Room XVI, The Palais des Nations
Geneva, Switzerland

The Guidelines are a practical, field-tested tool for humanitarian actors and crisis-affected communities.

They offer step-by-step guidance on essential actions to prevent gender-based violence across all sectors—resulting in safer and more effective programmes that reduce risk, promote resilience and aid recovery.

This event will be taking place as part of the 62nd Session of the Committee on the Elimination of Discrimination against Women and in connection to the 16 Days of Activism Against Gender Violence, which is an international campaign that starts on 25 November, International Day for the Elimination of Violence against Women and ends on 10 December, Human Rights Day. The campaign hopes to raise awareness about gender-based violence as a human rights issue at the local, national, regional and international level.
