Principles of Partnership

A Statement of Commitment

Endorsed by the Global Humanitarian Platform, 12 July 2007

The Global Humanitarian Platform, created in July 2006, brings together UN and non-UN humanitarian organizations on an equal footing.

 Acknowledging diversity as an asset of the humanitarian community and recognizing the interdependence among humanitarian organizations,

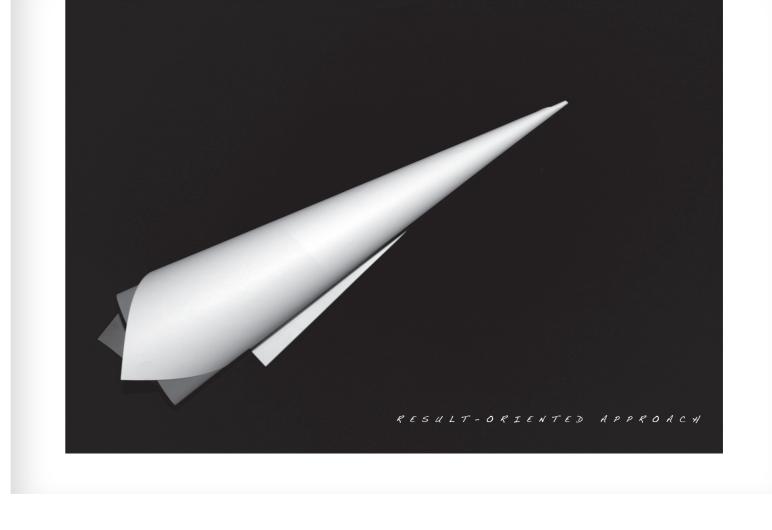

the organizations
participating in the Global
Humanitarian Platform
agree to base their
partnership on the following
principles

Equality requires mutual respect between members of the partnership irrespective of size and power. The participants must respect each other's mandates, obligations and independence and recognize each other's constraints and commitments. Mutual respect must not preclude organizations from engaging in constructive dissent.

Transparency is achieved through dialogue (on equal footing), with an emphasis on early consultations and early sharing of information. Communications and transparency, including financial transparency, increase the level of trust among organizations.

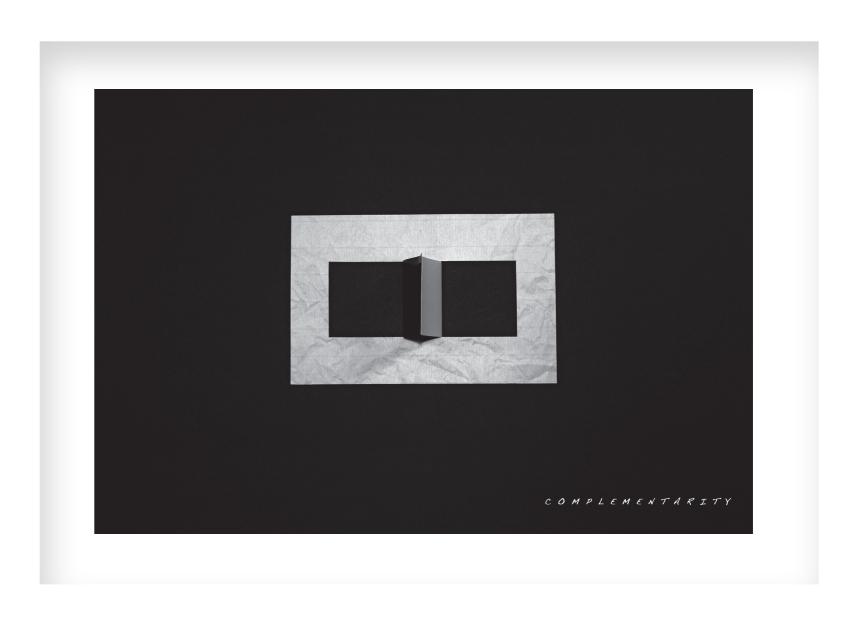

Result-oriented approach

Effective humanitarian action must be reality-based and action-oriented. This requires result-oriented coordination based on effective capabilities and concrete operational capacities.

Responsibility Humanitarian organizations have an ethical obligation to each other to accomplish their tasks responsibly, with integrity and in a relevant and appropriate way. They must make sure they commit to activities only when they have the means, competencies, skills, and capacity to deliver on their commitments. Decisive and robust prevention of abuses committed by humanitarians must also be a constant effort.

Complementarity The diversity of the humanitarian community is an asset if we build on our comparative advantages and complement each other's contributions. Local capacity is one of the main assets to enhance and on which to build. Whenever possible, humanitarian organizations should strive to make it an integral part in emergency response. Language and cultural barriers must be overcome.
