COP27 Engagement – Key Messages, Resources, Documents 6 – 18 November 2022, Sharm el-Sheikh, Egypt

Policy Papers:

[Embracing Discomfort: A call to enable finance for climate-change adaptation in conflict settings - October 2022](#)

This paper is jointly issued by the International Committee for the Red Cross (ICRC), ODI, the International Council of Voluntary Agencies (ICVA), MercyCorps, Red Cross Red Crescent Climate Centre, World Food Programme (WFP) and United Nations High Commissioner for Refugees (UNHCR).

The paper focuses on the **political will needed for the international community to step out of its comfort zone when it comes to channelling climate finance for climate-change adaptation**. Current mechanisms are characterised by low risk appetites, cumbersome technical and procedural requirements, inflexibility of scales, siloed structures that inhibit collaboration across conflict and climate expertise, and the inability to optimise the expertise and access of organisations across different sectors.

Together, we hope that the recommendations put forward with examples of good practice will spark conversations with policy makers on addressing the gaps in climate finance reaching some of the most vulnerable of global populations.

Key Messages/Call to Action/Campaigns

[COP27 Must Act on Human Mobility](#)

The Advisory Group on Climate Change and Human Mobility has put together messages on how COP27 must act on Human Mobility.

[ICRC's Call to COP27 to Strengthen Climate Action in Conflict Settings](#)

Countries enduring armed conflict and other violence – the vast majority of which are among the world's least developed countries (LDCs) – are some of the most vulnerable to the climate crisis. Ahead of COP27, the International Committee of the Red Cross (ICRC) urges parties to the United Nations Framework Convention on Climate Change (UNFCCC) and the governing bodies of the Conference of Parties (COP) to make three commitments to ensure that people living in conflict settings are not left behind.

[African Climate Caravans](#)

The Caravans are a call for climate justice, justice for those least responsible, most affected by climate change who are also the source of climate solutions and resilience leaders. There

will include a series of meetings, an interactive map with what is happening at grassroots levels as change makers. Find out more information [here](#).

Platforms

Disaster Displacement and Human Mobility at COP27

Learn more about how displacement and human mobility relating to disasters and the adverse impacts of climate change are being addressed at COP27. Platform on Disaster Displacement (PDD) will include an Information Note and Key Messages on Disaster Displacement for COP27. You can already find a non-exhaustive list of events discussing disaster displacement and human mobility scheduled to take place during COP27. Other resources will also be updated for further reading that States and other stakeholders can use to inform their interventions at the different events and sessions at the conference. Find the [page here](#).
