

MapAction Geo-Surgery

# Mapping during emergencies for enhanced coordination

# Who is MapAction

- UK based NGO established in 2002
- 80 volunteers and 20 mostly part time staff
- Provides GIS (mapping), data support and information management to the key decision makers for coordination during response
- Training and preparedness programmes

## STRATEGIC OBJECTIVES

Vulnerability reduced

Enhanced decision making

## THEMES

Anticipatory action

Health

Disaster risk reduction

## PROGRAMME DELIVERY

Learning

Response

Community

## INNOVATION HUB

Data lab

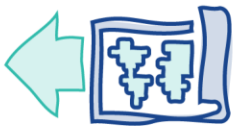

Software lab

Frontiers lab

## HOW

Products

Services

Personnel

Partnerships

25 country programmes

365 global response capacity

# Key partners

- CSO networks

  - ADRRN

- Regional

  - The AHA centre, CESDRR and CDEMA

- Global

  - UNOCHA, Unicef, Oxfam, The Start Network

Stand up if you have ever used a map

Stay standing if you use a map at work

Stay standing if you MAKE maps

**Tip 1:** Always think about the where

# GIS and IM themes

## DATA

- Discovery
- Analysis
- Structure/ Systems

## MAPPING

- Base mapping
- Analysis

## ASSESSMENT

- Kobo
- Visualisation

## REPORTING AND ADVOCACY

- 345W
- Rosters

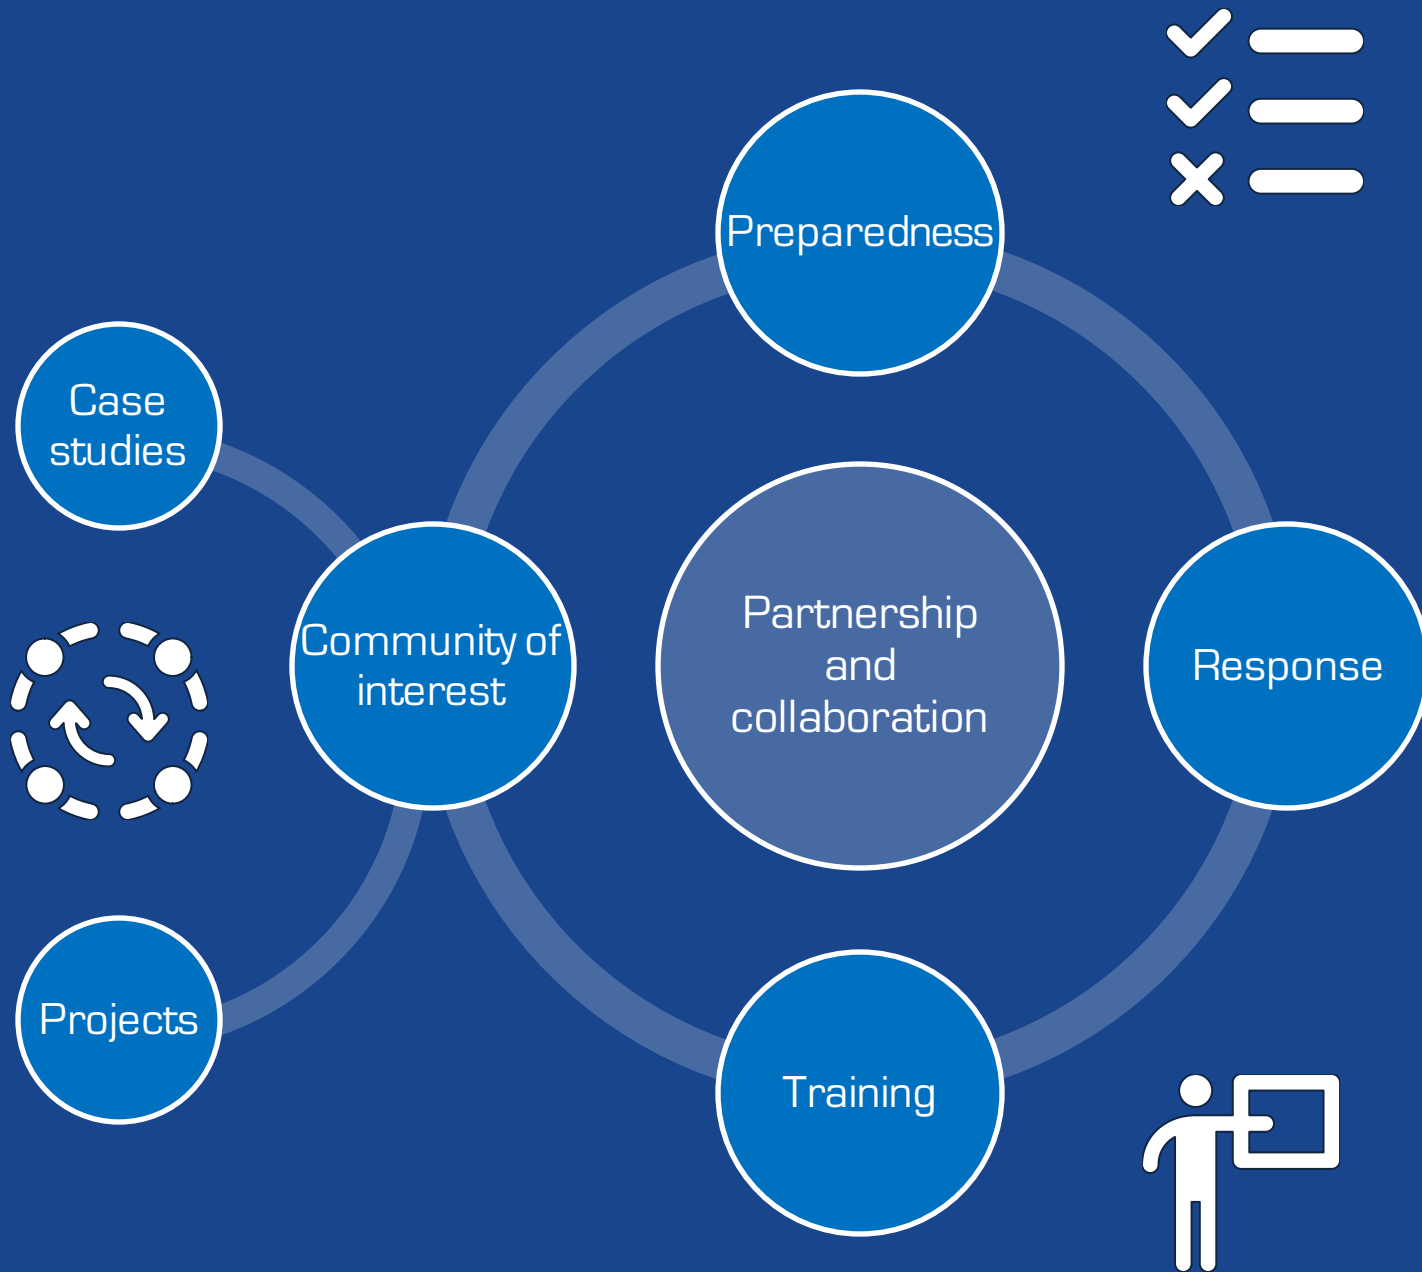

## GIS/ IM GOVERNANCE

## RESPONSE

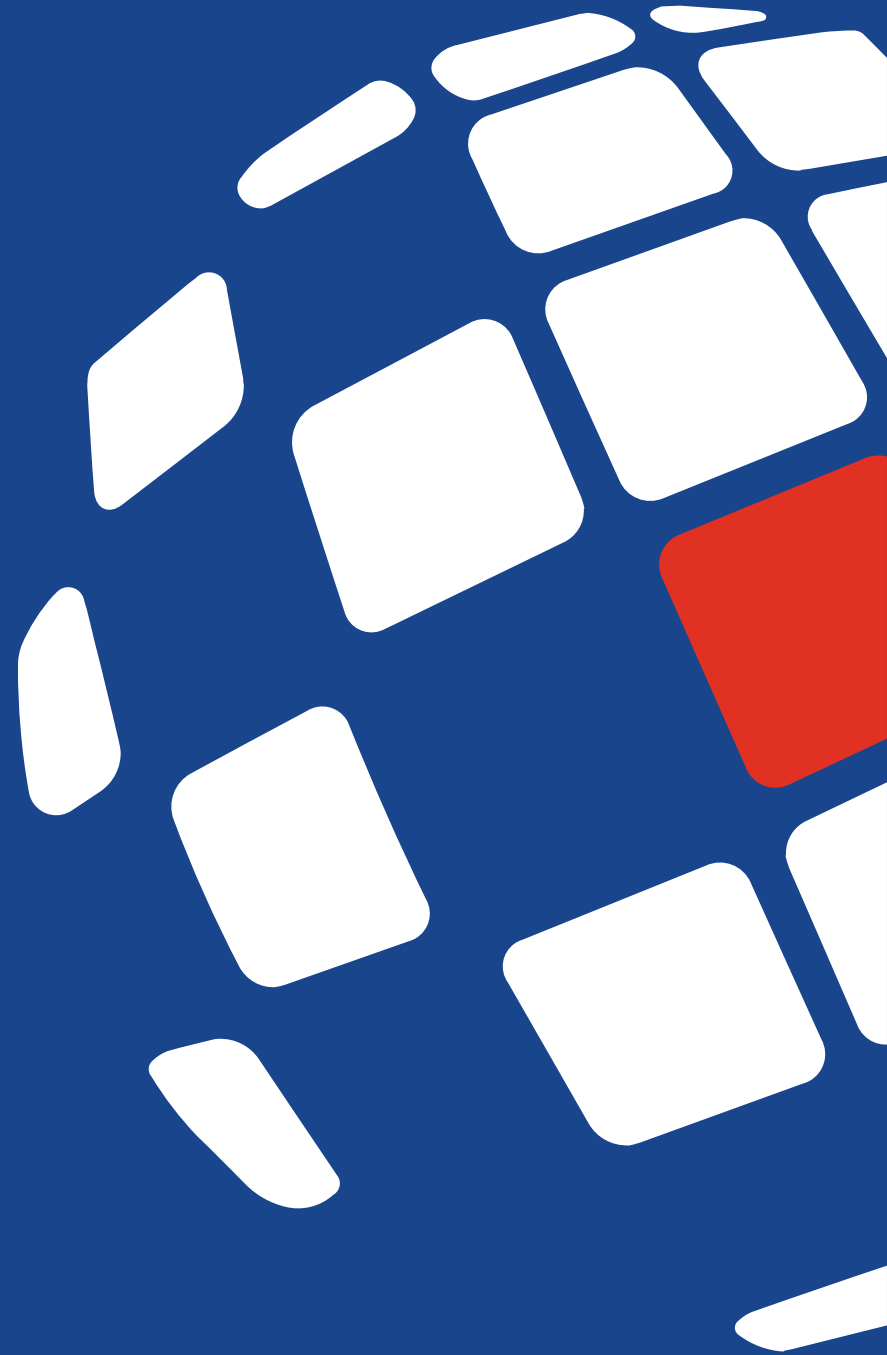

# Through

**Tip 2:** CODs and Pcodes make data more interoperable

MapAction Geo-Surgery

# DISCUSSION

# In the next 20 mins, discuss:

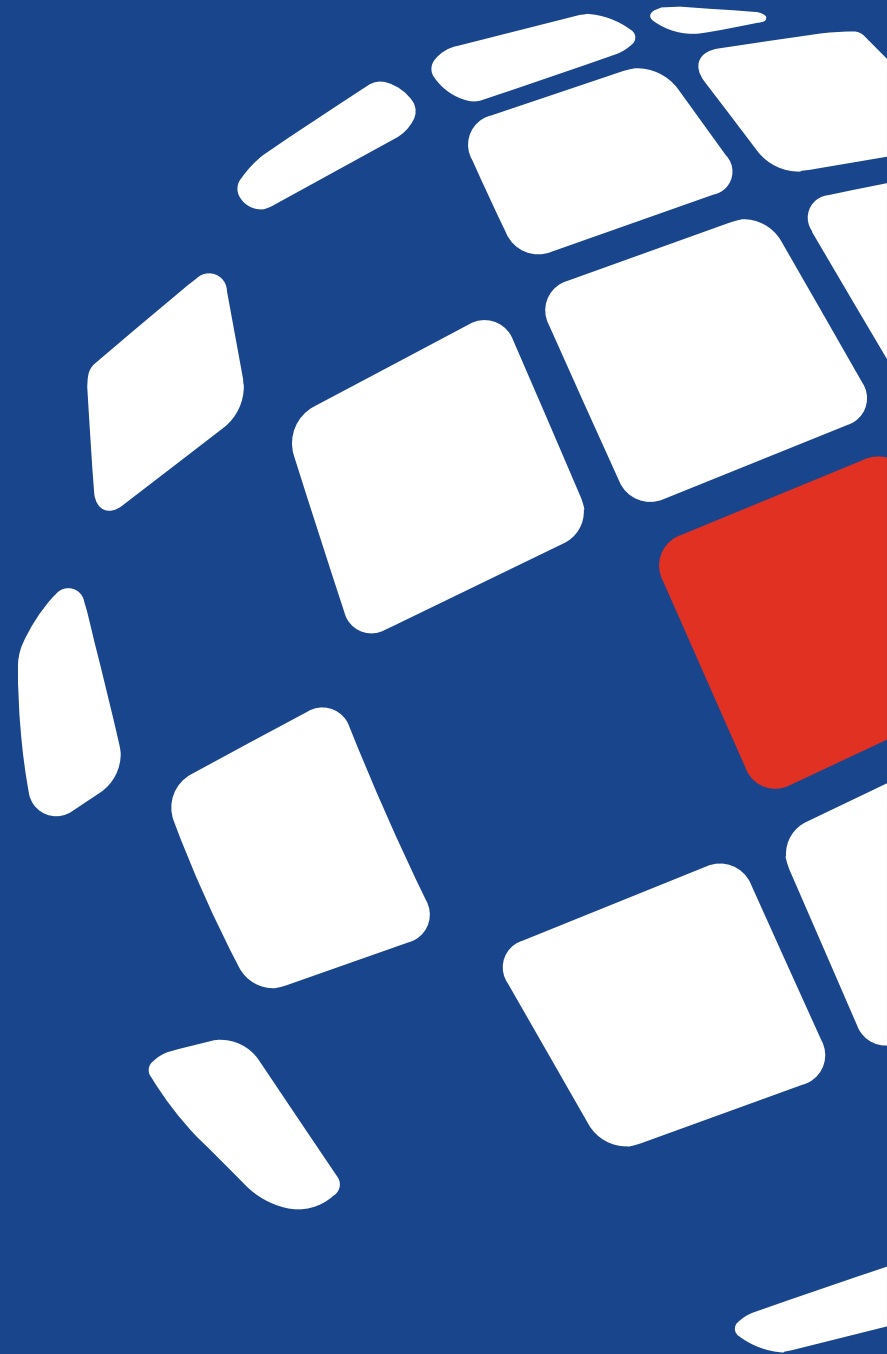

- What mapping and data challenges do you have?
- What were your solutions?
- How do you share or spillover those solutions to others

At the end of 20 mins come back with biggest challenge and your solution

**Tip 3: Map the gaps**  
Highlight what you don't know

MapAction Geo-Surgery

# 345W CASE STUDY

# Sri Lanka

# Nepal

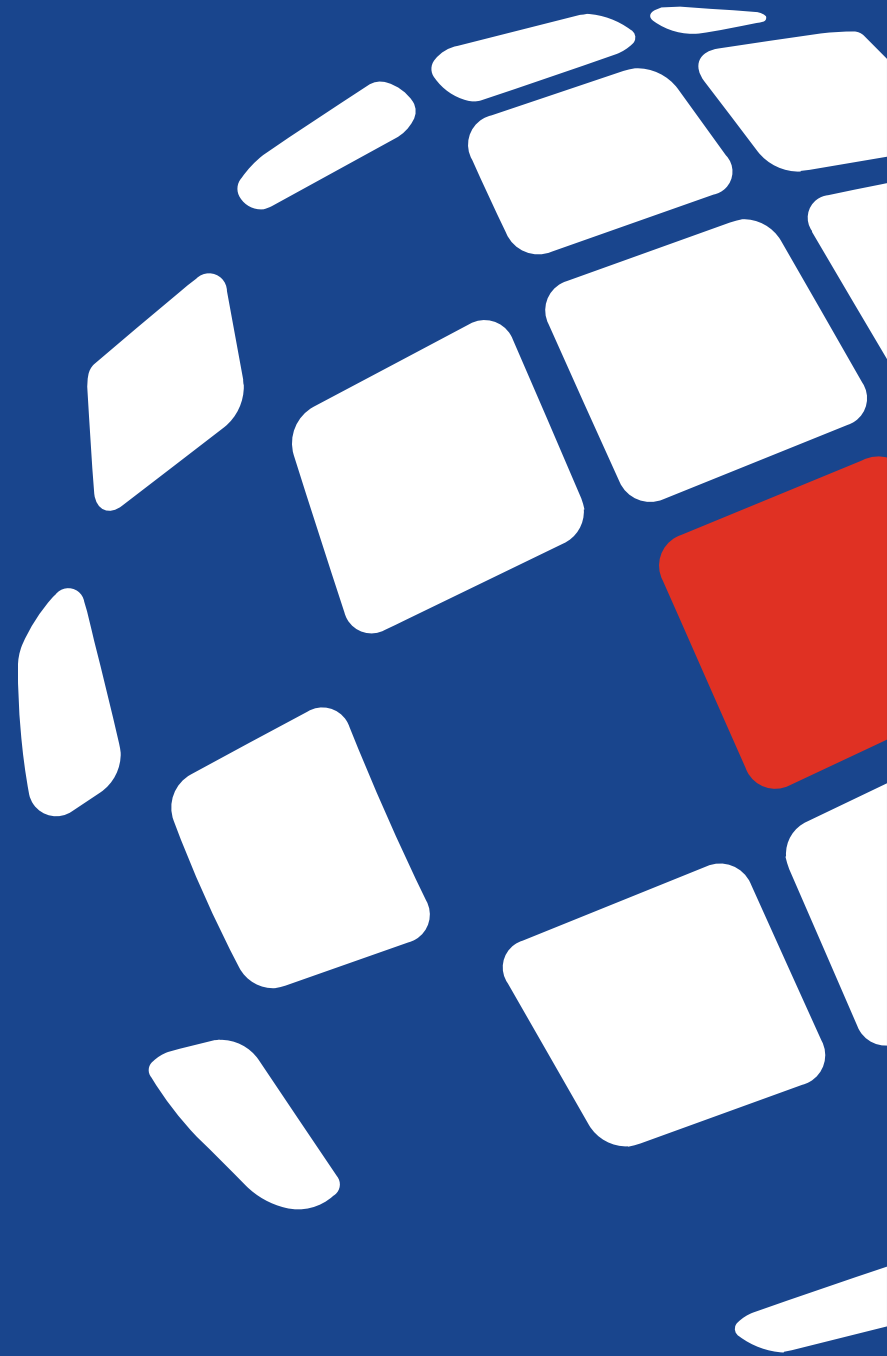

## Tip 4: Use the appropriate tool to answer the question?

PowerPoint, Google Earth and full blown GIS are all correct if it answers the question in time
