RESPONSE
Through Partnership and collaboration, projects can lead to case studies, preparedness, response, and training for the community of interest.
Tip 2: CODs and Pcodes make data more interoperable
DISCUSSION
In the next 20 mins, discuss:

- What mapping and data challenges do you have?
- What were your solutions?
- How do you share or spillover those solutions to others

At the end of 20 mins come back with biggest challenge and your solution
Tip 3: Map the gaps
Highlight what you don’t know

Tip 4: Use the appropriate tool to answer the question?
PowerPoint, Google Earth and full blown GIS are all correct if it answers the question in time
