

REGIONAL HUMANITARIAN PARTNERSHIP WEEK 2023

How Equal Partnerships Drive Quality Humanitarian and Emergency Preparedness Responses through Local Leadership

A discussion on innovative, locally-led humanitarian partnership models hearing directly from Women-led Organizations' experiences in Philippines, Nepal, and key regional stakeholders. The panel will delve into CARE's Humanitarian Partnership Platform (HPP) project model, highlighting its effectiveness in promoting gender equality, fostering local engagement and strengthening local Civil Society Organizations (CSOs). It also explores how this model ensures that humanitarian actions are tailored to the specific needs and voices of affected communities.

Regional Humanitarian Partnership Week 2023

A stock-taking: Why RGAs are “lifesaving” tools for responding to Women and Girls’ Needs?

This insightful session explores the added value of Rapid Gender Analysis when crises hit. CARE and UN Women Asia Pacific have carried out a regional RGA training with dozens of women-led organisations across the region this December 2023, and this event will help unpack the critical role they play in leading rapid gender assessments, especially in hard-to-reach areas, and engage in discussions about overcoming challenges in decision-making processes. Don't miss this opportunity to hear directly from these WLOs and contribute to the conversation, to prioritize the voices and needs of women and girls in development, humanitarian, and peacebuilding efforts.
